SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In compliance with Applicant's duty of disclosure under 37 C.F.R. § 1.56 and in conformance with 37 C.F.R. §§ 1.97-1.98, Applicant hereby submits the following references for consideration by the Examiner. In particular the requirements of 37 C.F.R. § 1.97(c) have been satisfied as shown by the attached certification in accordance with 37 C.F.R. § 1.97(e). Copies of the cited references are not being supplied since copies of the references were previously sent with Applicant's Information Disclosure Statement filed on July 15, 2004. A completed copy of

Form PTO-1449 is enclosed.

I. DISCLOSURE

A. Foreign Patent References

<u>Reference No.</u>	<u>Country</u>	<u>Pub. Date</u>
42 41 020 A1	Germany	06/09/94
195 23 795 C1	Germany	12/19/96
195 43 372 A1	Germany	05/22/97

II. DISCUSSION

A. German Reference No. 42 41 020

Based solely on the drawings and the previously filed English language Abstract, the '020 reference is pertinent, because it appears to disclose a rotating actuator for a throttle flap with electrical connection contacts and a throttle position sensor within a chamber.

The '020 reference was cited as an A-type reference in a Search Report (copy enclosed) regarding corresponding European Patent Application No. 04 00 3235. An A-type reference provides technical background and is not relevant to patentability.

B. German Reference No. 195 23 795

Based solely on the drawings and the previously filed English language Abstract, the '795 reference is pertinent, because it appears to disclose a cable gland using a crimp sleeve and a collet.

The '795 reference was cited as an A-type reference in a Search Report regarding corresponding European Patent Application No. 04 00 3235.

C. German Reference No. 195 43 372

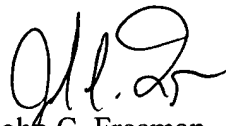

The pertinence of the '372 reference is discussed in paragraphs 0004 and 0005 of the subject application. Based solely on the drawings and the previously filed English language Abstract, the '372 reference appears to disclose an angle measurement device with a cable strain relieving device inside of a housing.

The '372 reference was cited as an A and D-type reference in a Search Report regarding corresponding European Patent Application No. 04 00 3235.

III. CONCLUSION

It is believed that none of these references, alone or in combination, disclose or suggest the invention claimed. However, Applicant wishes to make it clear that the disclosure of the above references is in no way an admission that they qualify as prior art. It is Applicant's desire, however, to have these references available in the record for both the Examiner and the public to see. Applicant therefore requests that the Examiner review the entire disclosure of each reference and make the above-listed references of record.
